13 at such project, only after the Secretary provides written  
14 notice to the Committee on Transportation and Infra-

5           review of the accuracy of the project cost estimates  
6           developed by the Corps of Engineers for completed  
7           and ongoing water resources development projects  
8           carried out by the Secretary.

9           (2) REQUIREMENTS.—In carrying out para-  
10          graph (1), the Comptroller General shall determine  
11          the factors, if any, that impact the accuracy of the

13          ing—

14                (A) applicable statutory requirements, in-  
15                cluding—

16                    (i) section 1001 of the Water Re-

18                    2014 (33 U.S.C. 2282e); and

19                    (ii) section 905(b) of the Water Re-  
20                    sources Development Act of 1986 (33

17      Congress that—

18           (A) there are significant concerns about  
19      whether—

20           (i) the indemnification clause, which  
21           was first applied in 1910 to flood control  
22           projects, should still be included in project  
23           partnership agreements prepared by the  
24           Corps of Engineers for water resources de-  
25           velopment projects; and

1 (ii) non-Federal interests for water re-  
2 sources development projects should be re-  
3 quired to assume full responsibility for  
4 OMRR&R of water resources development  
5 projects in perpetuity;

6 (B) non-Federal interests have reported  
7 that the indemnification clause and OMRR&R  
8 requirements are a barrier to entering into  
9 project partnership agreements with the Corps  
10 of Engineers;

11 (C) critical water resources development  
12 projects are being delayed by years, or not pur-  
13 sued at all, due to the barriers described in sub-  
14 paragraph (B); and

15 (D) legal structures have changed since the  
16 indemnification clause was first applied and  
17 there may be more suitable tools available to  
18 address risk and liability issues.

20 date of enactment of this Act, the Comptroller Gen-  
21 eral shall conduct an analysis of the implications  
22 of—

2 sibilities by non-Federal interests in perpetuity  
3 for water resources development projects.

4 (3) INCLUSIONS.—The analysis under para-  
5 graph (2) shall include—

6 (A) a review of risk for the Federal Gov-  
7 ernment and non-Federal interests with respect  
8 to removing requirements for the indemnifica-  
9 tion clause;

10 (B) an assessment of whether the indem-  
11 nification clause is still necessary given the  
12 changes in engineering, legal structures, and  
13 water resources development projects since  
14 1910, with a focus on the quantity and types of  
15 claims and takings over time;

16 (C) an identification of States with State  
17 laws that prohibit those States from entering  
18 into agreements that include an indemnification  
19 clause;

20 (D) a comparison to other Federal agen-  
21 cies with respect to how those agencies ap-  
22 proach indemnification and OMRR&R require-  
23 ments in projects, if applicable;

24 (E) a review of indemnification and  
25 OMRR&R requirements for projects that States

1           require with respect to agreements with cities  
2           and localities, if applicable;

3           (F) an analysis of the useful lifespan of  
4           water resources development projects, including  
5           any variations in that lifespan for different  
6           types of water resources development projects  
7           and how changing weather patterns and in-  
8           creased extreme weather events impact that  
9           lifespan;

10          (G) a review of situations in which non-  
11          Federal interests have been unable to meet  
12          OMRR&R requirements; and

13          (H) a review of policy alternatives to  
14          OMRR&R requirements, such as allowing ex-  
15          tension, reevaluation, or deauthorization of  
16          water resources development projects.

17          (4) REPORT.—On completion of the analysis  
18          under paragraph (2), the Comptroller General shall  
19          submit to the Committee on Environment and Pub-  
20          lic Works of the Senate and the Committee on  
21          Transportation and Infrastructure of the House of  
22          Representatives a report that includes—

21 the environmental review of project stud-  
22 ies;

23 (ii) whether the adoption of new pro-  
24 grammatic environmental impact state-

1           ments would facilitate the environmental  
2           review of project studies; and
